

## **ALLORAH'S INSIGHTS**

October 27, 2008

I've spent a great deal of my life learning things that would allow me to be of better service. One of the teachers I was blessed to know was very dedicated to reminding us that Spiritual power is real and that it can and does have a real impact on planet earth. It was his practice to offer bimonthly group meditations to gracefully support our spiritual growth and (in times of trouble) emergency group meditations to send Divine Light to places in need such as the aftermath of a tsunami or countries in financial distress. His name was Choa Kok Sui and though he is no longer with us in the physical body, his work is carried on by his students around the world.

In looking at the world around us it is clear that we are in a time of dynamic paradigm shifts. On the surface, it looks a bit as if the world is going to Hell in a hand basket. What is really so, is that we are undergoing an upgrade to our consciousness. It is not an accident that there has been an increasing emphasis on the Law of Attraction over the last one hundred years. These teachings resurfaced in earnest to begin preparing us for the new age, the age of Aquarius, the time forecast as the end of the Mayan calendar.

The world is not coming to an end. What is likely to happen, is that we are entering the time known as "the thousand years of peace." It has been said that if we are able to evolve enough to choose peace on a regular basis, then we can actively and consistently recognize and express our Divine nature while in physical form. From there we will be able to experience Heaven on earth/ return to the Garden of Eden both in the flesh and in our consciousness. The purpose of this transitional time in history is to rebuild the bridge by which we will then be able to carry out the original Divine plan to consciously be God in physical form.

So, what I am suggesting is that we offer our energy: mind, body and soul to prepare the way for a smooth holistic transition through this time of change. This week's "pick" is a prosperity prayer offered by Choa Kok Sui for our well being in a state of abundance. If you would read it daily and offer it for the good of all of us, we can help to clear the path for a new healthy world view that serves the highest good of all. Consider it being in service through prayer for peace and sustenance. May the benefits of your offering return to you exponentially...

Namaste,  
Allorah
